Minnesota NAEP performance over time

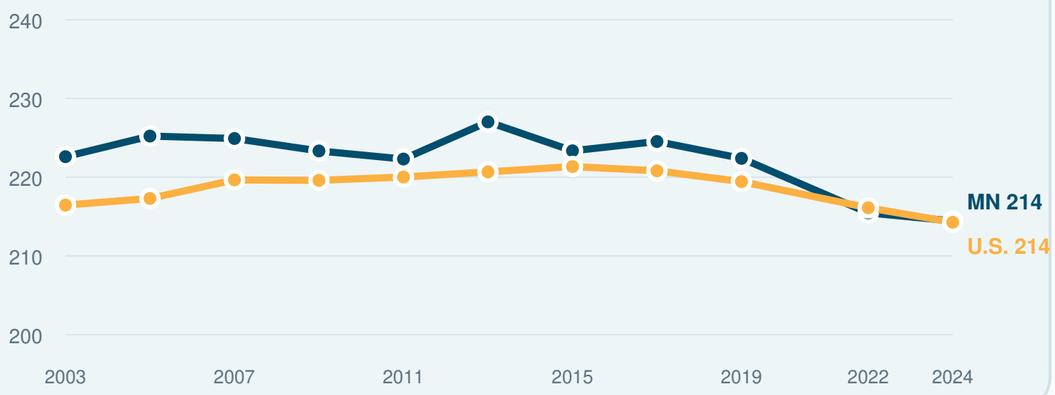

Minnesota U.S. public

Average scores for Minnesota public-school students compared with the national public-school average.

Public-school results include students attending public charter schools.

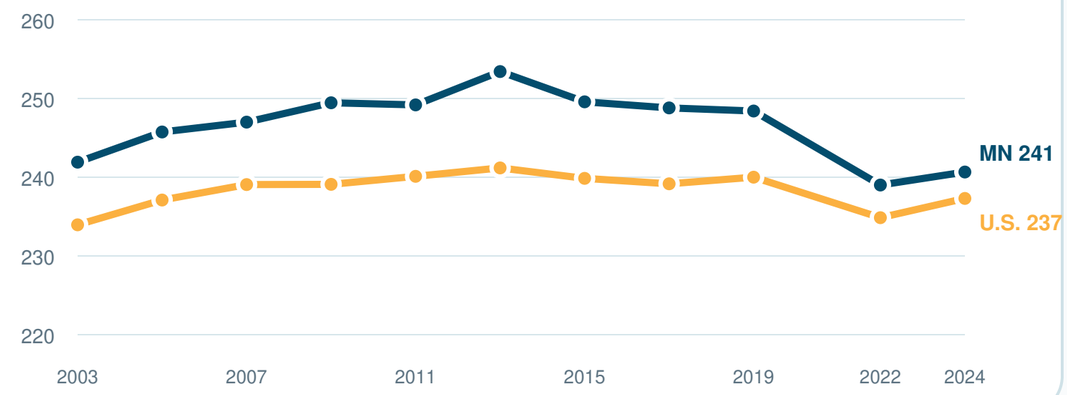

GRADE 4 READING

2024 raw-score position: #27 of 50 states

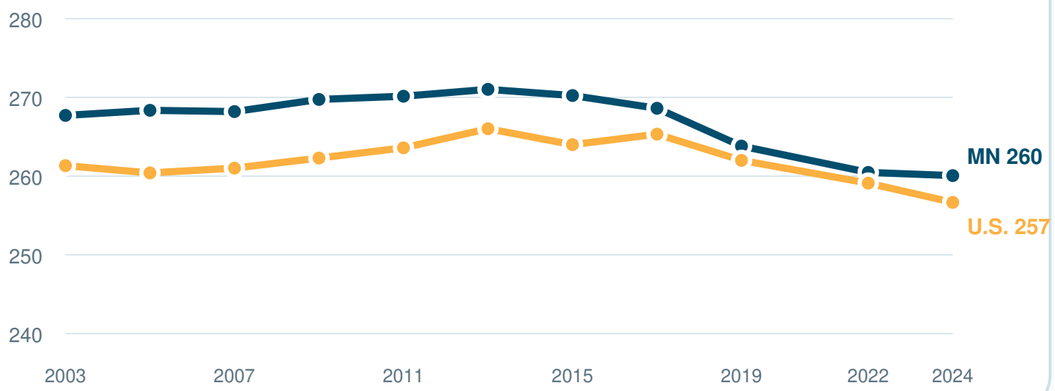

GRADE 4 MATH

2024 raw-score position: #7 of 50 states

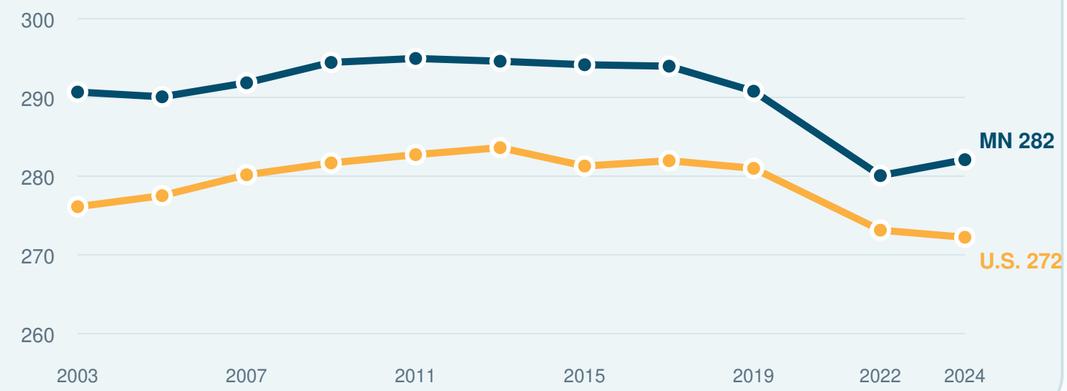

GRADE 8 READING

2024 raw-score position: #14 of 50 states

GRADE 8 MATH

2024 raw-score position: #3 of 50 states

HOW TO READ THIS GRAPH

NAEP reports group-level estimates from representative samples—not scores for every student or individual school.

Compare Minnesota with U.S. public results only within the same grade and subject. Reading and mathematics scales range from 0 to 500.

Raw-score positions are descriptive and do not establish statistically significant rankings; use NAEP significance tests for formal comparisons.

SOURCE U.S. Department of Education, National Center for Education Statistics, National Assessment of Educational Progress (NAEP) Data Service, 2003–2024 reading and mathematics assessments. Minnesota and Nation (public) results; public-school estimates include public charter schools.
